SUMMARY

Motivated Java Backend Developer with strong knowledge of Java, Spring Boot, REST APIs and Microservices. Experienced in building backend applications using JPA/Hibernate and MySQL, with hands on project work using Git, Maven, Docker and cloud ready development (AWS/GCP). Solid understanding of OOPs, Collections, Exception Handling and writing clean, maintainable code. Quick learner with strong problem solving skills and experience working in Agile/Scrum environments.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Microservices, REST APIs

Database: MySQL, PostgreSQL

ORM: Hibernate, JPA

Tools: Git, Maven, Docker, Postman

Cloud: AWS, GCP

WORK EXPERIENCE

Web Development (Intern) **Feb 2025**

CodeBind Technologies **Chennai,TN**

Project: Online Vehicle Rental System

Tech Skills: HTML,CSS,JavaScript,Php.

- Developed a car booking application used by XX users…
- Implemented booking forms with date and time selection functionality.
- Gained hands on experience in full stack development and database connectivity.

PROJECT

Mini Project:Blockchain Based Secure Evidence Protection System **Mar - May 2025**
Self-based

Tech Skills: Python,SQL,HTML,CSS,SHA 256.

- Developed a secure evidence storage system ensuring tamper proof digital data.
- Designed a user friendly and responsive interface using HTML and CSS.
- Managed the SQL database for efficient data storage and retrieval.
- Integrated blockchain technology to verify data integrity

EDUCATION

B.Tech – Information Technology
IFET College of Engineering, Anna University **2023–2027**
CGPA: 8.3

ACHIEVEMENTS

- Achieved 8.3 CGPA while completing multiple technical projects.
- Completed CCNA modules in Networking, Switching & Routing gaining strong foundational knowledge in computer networks.
- Built a blockchain based project demonstrating strong problem solving and system design thinking.
